SUMMARY

Senior Frontend Engineer with **8 years of experience** building scalable, high-performance web applications. Strong expertise in **frontend architecture, performance optimisation, and system design**, with a focus on delivering maintainable and reliable applications in production environments.

Experienced in working within **agile delivery models**, collaborating across teams, and contributing to engineering best practices, code quality, and system stability.

WORK EXPERIENCE

ZOHO Corporation — Chennai, India

Web Developer (Frontend) | Feb 2020 – Present

- Owned frontend development for **Japan CRM Academy**, improving **sign-up conversion by ~30%** through performance and UX improvements

Architecture, Scalability & Performance

- Designed and implemented **reusable UI systems and frontend architecture** to support scalable and maintainable applications
- Led **Core Web Vitals optimisation (LCP, CLS, FID)**, improving load time, responsiveness, and overall performance
- Optimised frontend build pipelines using **Webpack and Vite**

Engineering Quality & Reliability

- Developed clean, maintainable, and scalable code following structured engineering practices
- Applied testing and debugging practices to improve application stability and reduce production issues

Delivery & Ownership

- Worked within structured delivery workflows, contributing to planning, execution, and release cycles
- Took ownership of features from development through to production, ensuring quality and reliability

Collaboration & Agile

- Collaborated with cross-functional teams including designers, backend engineers, and stakeholders
- Participated in technical discussions and contributed to decision-making processes
- Supported code reviews and maintained engineering standards across the team

K2B Solutions — Chennai, India

UI Developer | Jan 2018 – Feb 2020

- Built scalable UI applications for international clients (UK, Singapore, Australia)
 - Delivered an **Awwwards-recognised website**, demonstrating strong frontend and UX execution
-

SKILLS

Frontend:

React, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS/LESS

Architecture & Systems:

Component-driven development, Design Systems, Web Components, Micro Frontends, i18n

Engineering Practices:

SDLC, CI/CD pipelines, Code Reviews, Debugging, Production Support, Agile

Performance:

Core Web Vitals (LCP, CLS, FID), Performance optimisation

State & Data:

Redux Toolkit, RTK Query, Context API, REST APIs

Testing & Quality:

Jest, React Testing Library

Tools:

Webpack, Vite, Git, npm

KEY PROJECTS

Japan CRM Academy: Built and localized a production platform improving conversion by ~30% through performance and UX improvements (*Tech: JavaScript, SCSS, REST APIs, i18n*)

AI Productivity & Automation Tools: Developed AI-assisted Chrome extensions and internal tools to automate workflows and reduce manual effort by ~30% (*Tech: JavaScript, Chrome Extension, GPT, Claude APIs*)

JobHunter Chrome Extension: Built an AI-powered Chrome extension to analyze job listings and streamline application workflows (*Tech: JavaScript, Chrome Extension, Claude*)

EDUCATION

Anna University, Jawahar Engineering College — Chennai, India | 2013 – 2017

Bachelor of Engineering (Electronics & Communication Engineering)

LANGUAGES

English (Professional), Tamil (Native), Sourashtra (Conversational)
