SUMMARY

Senior Frontend Engineer with 5+ years of experience building **high-performance, scalable web applications** using React and TypeScript. Proven track record in **frontend architecture, system design, and performance optimisation**, delivering production-grade UI systems used across global markets.

Experienced in **component-driven development, CI/CD workflows, and Core Web Vitals optimisation**, with strong focus on **code quality, maintainability, and developer productivity**. Adept at working in **large, collaborative teams**, contributing to full SDLC from design to deployment.

WORK EXPERIENCE

ZOHO Corporation — Chennai, India

Web Developer (Frontend) | Feb 2020 – Present

- Architected and owned frontend for **Japan CRM Academy**, a production platform, improving **sign-up conversion by ~30%** through performance-focused UI engineering
- Developed and delivered **scalable, localised UI systems** for Japan-market products, improving adoption across regional users
- Led **Core Web Vitals optimisation (LCP, CLS, FID)** and improved bundle performance using **Webpack/Vite**, enhancing application responsiveness
- Designed and implemented **component-driven architecture (Web Components, design systems)** to standardise UI patterns across multiple products
- Built **reusable abstractions and internal tooling**, accelerating development cycles and improving engineering efficiency

Code Quality, SDLC & Engineering Practices:

- Actively contributed to **code reviews, debugging, and resolving merge conflicts**, ensuring high-quality production code
- Worked across **CI/CD pipelines, Git workflows, and release processes** to maintain stable deployments
- Collaborated with cross-functional teams to influence **product design decisions and UI architecture**

Advanced Engineering & Automation:

- Developed internal tools (SEO checker, schema validator, automation utilities) reducing manual QA effort by ~25%
 - Implemented structured workflows and automation to improve **developer productivity and consistency in UI delivery**
-

K2B Solutions — Chennai, India

UI Developer | Jan 2018 – Feb 2020

- Built **pixel-perfect, responsive UI applications** for international clients (UK, Singapore, Australia)
 - Delivered an **Awwwards-recognised website** for UK client Bluestone98
 - Developed UI systems for **Singapore Land Authority**, ensuring high-quality frontend delivery
 - Improved navigation architecture for an Australian real estate platform, enhancing usability and engagement
-

SKILLS

Frontend Development:

React, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

Architecture & Systems:

Component-driven development, Micro Frontends, Web Components, Design Systems, i18n, RTL

State & Data Management:

Redux Toolkit, RTK Query, Context API, REST APIs

Testing, Performance & Quality:

Jest, React Testing Library, Core Web Vitals (LCP, CLS, FID), Cross-browser compatibility, WCAG 2.2

Build & DevOps:

Webpack, Vite, npm, Git, CI/CD pipelines

Automation & Tooling:

Frontend tooling, workflow automation, Chrome Extensions

KEY PROJECTS

Japan CRM Academy

- Built and scaled a production learning platform with **localised UI and performance optimisation**, improving conversion by ~30%

AI Productivity & Automation Tools

- Developed internal tools to automate SEO checks and UI validation, reducing manual effort and improving delivery speed

JobHunter Chrome Extension (In Progress)

- AI-assisted job search tool to analyse listings and optimise application workflows
-

EDUCATION

Bachelor of Engineering (Electronics & Communication Engineering)

Anna University — Chennai, India

LANGUAGES

English (Professional), Tamil (Native), Sourashtra (Conversational)
