SUMMARY

Senior Frontend Engineer with 8 years of experience building **scalable, AI-enhanced web applications** using React and TypeScript. Strong expertise in **developing complex UI systems, integrating generative AI workflows, and improving developer productivity through automation and tooling**.

Proven track record of delivering **high-performance, accessible, and reusable frontend architectures**, with a focus on **clean code, testing, and cross-functional collaboration**. Experienced in building internal tools and platforms used across teams to drive efficiency and product innovation.

WORK EXPERIENCE

ZOHO Corporation — Chennai, India

Web Developer (Frontend) | Feb 2020 – Present

- Architected and owned frontend for **Japan CRM Academy**, a production platform, improving **sign-up conversion by ~30%** through scalable and high-performance UI design
- Built and delivered **AI-assisted frontend workflows**, including UI scaffolding systems and automation tools, reducing development time by ~30%
- Designed and implemented **reusable component systems (Web Components, design patterns)** enabling consistent UI/UX across multiple product surfaces
- Developed internal tools (SEO checker, schema validator, automation utilities) reducing manual QA effort by ~25% and improving workflow efficiency

AI-Integrated Engineering:

- Designed structured **multi-step LLM workflows** for UI generation, code refinement, and developer assistance using GPT, Claude, and Cursor
- Applied model selection and optimisation strategies to improve output quality and engineering efficiency

Code Quality, Performance & Accessibility:

- Led **Core Web Vitals optimisation (LCP, CLS, FID)** and improved application performance using Webpack/Vite
- Ensured **clean, maintainable, and reusable code** through active participation in code reviews and debugging processes
- Implemented **i18n and accessibility-focused UI patterns**, supporting global users and multilingual deployments

Collaboration & Ownership:

- Worked closely with product teams, designers, and backend engineers to deliver **user-centric, scalable frontend solutions**
- Contributed to shared frontend architecture and engineering best practices across teams

K2B Solutions — Chennai, India

UI Developer | Jan 2018 – Feb 2020

- Developed **responsive, high-quality UI applications** for international clients (UK, Singapore, Australia)
 - Delivered an **Awwwards-recognised website** for UK client Bluestone98
 - Built frontend systems for **Singapore Land Authority**, ensuring scalable and maintainable UI delivery
 - Improved information architecture and navigation for an Australian real estate platform
-

SKILLS

Frontend Development:

React, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

AI & Automation:

LLM workflows (GPT, Claude, Cursor), AI-assisted development, UI scaffolding systems, workflow automation

Architecture & Systems:

Component-driven development, Micro Frontends, Web Components, Design Systems, i18n

State & Data:

Redux Toolkit, RTK Query, Context API, REST APIs, async data flows

Testing, Performance & Accessibility:

Jest, React Testing Library, Core Web Vitals, WCAG 2.2, Cross-browser compatibility

Build & DevOps:

Webpack, Vite, npm, Git, CI/CD pipelines

KEY PROJECTS

Japan CRM Academy

- Built and scaled a production platform with localised UI and performance optimisation, improving conversion by ~30%

AI Productivity & Automation Tools

- Developed AI-powered internal tools and Chrome extensions to automate frontend workflows and reduce manual effort

JobHunter Chrome Extension (In Progress)

- AI-assisted job search tool that analyses listings and streamlines application workflows
-

EDUCATION

Bachelor of Engineering (Electronics & Communication Engineering)

Anna University, Jawahar Engineering College — Chennai, India 2013 – 2017
