SUMMARY

Senior Frontend Engineer with **8 years of experience** building high-impact, user-facing applications with a strong focus on performance, usability, and product outcomes.

Experienced in owning features end-to-end, building responsive interfaces, and collaborating closely with product, backend, and users to deliver scalable and reliable systems.

WORK EXPERIENCE

ZOHO Corporation — Chennai, India

Web Developer (Frontend) | Feb 2020 – Present

- Owned frontend development for **Japan CRM Academy**, improving **sign-up conversion by ~30%** through performance and UX improvements

Architecture & System Design

- Designed and implemented **scalable frontend architecture and reusable UI systems** to support multiple product workflows
- Applied design patterns to improve modularity, maintainability, and long-term scalability

Performance & Optimisation

- Led **Core Web Vitals optimisation (LCP, CLS, FID)**, improving load times, responsiveness, and overall user experience
- Identified and resolved performance bottlenecks in production systems

Engineering Quality & Reliability

- Developed clean, maintainable, and production-grade code following structured engineering practices
- Applied testing and debugging techniques to improve system stability and reduce defects

Ownership & Delivery

- Took ownership of features end-to-end, from requirement understanding to production release
- Ensured reliable delivery in fast-paced environments with a focus on quality and performance

Collaboration & Technical Influence

- Collaborated closely with product managers, designers, and backend engineers to refine user flows and improve usability
- Participated in code reviews and contributed to maintaining engineering standards across the team

UI Developer | Jan 2018 – Feb 2020

- Developed responsive and scalable UI applications for international clients (UK, Singapore, Australia)
- Delivered an **Awwwards-recognised website**, demonstrating strong UI engineering and user experience
- Built reusable UI components and improved interaction flows to enhance usability

SKILLS

Frontend:

React, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS/LESS

Architecture & Systems:

Component-driven development, Design Systems, Web Components, i18n

State & Data:

Redux Toolkit, RTK Query, Context API, REST APIs

Performance:

Core Web Vitals (LCP, CLS, FID), Performance optimisation

Engineering Practices:

CI/CD pipelines, Code Reviews, Debugging, Production Support

Tools:

Webpack, Vite, Git, npm, Figma

KEY PROJECTS

Japan CRM Academy: Built and localized a production platform improving conversion by ~30% through performance and UX improvements (*Tech: JavaScript, SCSS, REST APIs, i18n*)

AI Productivity & Automation Tools: Developed AI-assisted Chrome extensions and internal tools to automate workflows and reduce manual effort by ~30% (*Tech: JavaScript, Chrome Extension, GPT, Claude APIs*)

JobHunter Chrome Extension: Built an AI-powered Chrome extension to analyze job listings and streamline application workflows (*Tech: JavaScript, Chrome Extension, Claude*)

EDUCATION

Anna University, Jawahar Engineering College — Chennai, India | 2013 – 2017

Bachelor of Engineering (Electronics & Communication Engineering)

LANGUAGES

English (Professional), Tamil (Native), Sourashtra (Conversational)
